CONSIGNOR TIPS

Do you find yourself with too much clutter? Perhaps you just need a little extra money. The Balderdash Collection may be able to help you. But first, here are a few tips to help you get the most out of your stuff.

Our first tip is to really make your items sparkle. Having something nice and clean is a sure fire way to get it looked at, and you will most likely get more out of it.

Next, we recommend that you organize your items. Having the same sorts of items together when brought to us helps us get your items out into the store much faster, getting your stuff more exposure.

We also recommend you find out any background information on the items you have before bringing them in. Was this piece a replica? Or is this the original from the 1920s?

We want to know! The more information you have, the better we can do at pricing and describing your item to interested customers.

Hopefully these tips will help you, and us, get the most out of your items. Don't forget to call before bringing your items in, we need to make sure we have room, and don't accept walk-ins. And, as always, if you have questions, don't hesitate to ask.

ing a different type of item. These sales will be announced in the monthly newsletter, so be sure to keep an eye out for our sale items of the month.
